

KAADY CHEMICAL™

The Science of Cleaning

GLASS CLEANER

CONCENTRATED FORMULA

The advantages are easy to see.

This super-concentrated Kaady Chemical formula cuts through dirt and film to leave a squeaky-clean, streak-free surface when diluted manually or automatically (at a ratio of 100:1 to 70:1) into a safe, ready-to-use solution. Apply with damp towel or sprayer, wipe clean with damp towel.

The Chemistry is Right! NON-ACIDIC, NON-CAUSTIC, PHOSPHATE-FREE

Like all Kaady Chemicals, streak-free Glass Cleaner has been performance-proven in car washes around the country, including our own chain of automatic washes in the Pacific Northwest, which acts as a year-round “test lab” for our products.

► MIXING & APPLICATION:

Application:

Apply with damp towel or sprayer, wipe clean with a damp towel.

Dilution:

Manually or automatically dilute product **100:1** to **70:1** to create ready to use window cleaning solution.
